PROTECTS YOUR AMAZING HAIR

NEW EXPERIENCE ↘

Keratin can be found in skin, hair, nails, teeth, wool and hooves. If the outer layer of keratin of one's hair has been damaged, the hair will look dry, frizzy, and overall unhealthy. What Keratin treatment does is to smooth and protect hair shaft by coating the hair follicle. The second layer of your hair, called Cortex, is changing after the bonds of keratin are applied. Keratin changes the structure of your hair on the inside of the hair shaft, and on the outside of the hair follicle it bonds and locks into place.

Keratin treatment is specifically formulated to smooth dry, frizzy, over-processed, color treated hair, and it's a perfect solution for hair that tends to react to humidity or heat. Keratin-based coating will give your hair a silky-smooth and shiny finish and will make your hair surprisingly easy to style.

LUXLISS Keratin Treatment process does not involve breaking down the hair and restructuring it. There is virtually no risk of hair damage or breakage, as long as the product is properly used. Also Keratin Treatment is a long lasting and gentle, reversible treatment that will wash out over time without harming the hair. And with special addition of natural Argania Spinosa Kernel oil, you can get – healthy, shiny, frizz-free and manageable hair after the treatment.

ANTI-FRIZZ

LEAVES HAIR SHINE & SMOOTH
NO BUILDING UP CONTAIN ARGAN OIL

IMMEDIATELY REDUCES
HAIR FRIZZ LEAVES HAIR SOFT AND MANAGEABLE

Before

After

Step 1 Deep cleansing

DEEP CLEANSING SHAMPOO

Purifying
Argan oil infused

Specially formulated to remove all residues and impurities that cling to the hair shaft. After deep cleansing, advanced PH elevating technology will open the cuticles and prepare hair to receive professional treatment. Exclusively developed for hair before LUXLISS KERATIN SMOOTHING TREATMENT.

DIRECTIONS ↘

Apply to wet hair, work evenly through hair from roots to ends, rinse thoroughly, and repeat if necessary.

Step 2 Straightening

SMOOTHING TREATMENT

This is a smoothing treatment that infuses dark, coarse, frizzy, curly hair with keratin protein to loosen, smooth and detangle curls while eliminating frizz with just one application, it will last as long as 2-3 months. Our specially formulated treatments also include protein and Argan Oil which can repair, restore and moisten the hair follicles.

DIRECTIONS ▾

1. Wash hair two times with LUXLISS KERATIN DEEP CLEANSING SHAMPOO.
2. Blow hair to 100% dry, pour 2-3 ounces of the LUXLISS KERATIN SMOOTHING TREATMENT into a bowl.
3. Section hair into four parts. Starting at the nape section, part the hair into 1/2" to 1" sections. Using a tint brush, start applying the solution from scalp to hair ends. Comb through hair with a fine tooth comb, insuring that the solution is evenly distributed. Repeat this until the entire head is complete. DO NOT OVER SATURATE. (Gloves should be worn during this procedure.)
4. Remove the plastic cap and comb hair thoroughly with a fine tooth comb removing excess product. Tightly seal the bottle after using it. (Do not wash the solution out of the hair.)
5. Blow Dry hair using a medium-hot heat setting, blow dry with wide paddle brush or vent brush to 100% dry.
6. Divide hair into 4 sections.
7. Using a flat iron, start at the nape of the neck, taking 1/8 inch sections, move the iron from root to end rapidly 5-7 times(3-5 times for fine or double processed hair).

	Farenheight	Centigrade
Severe damaged hair	380° to 410°	193° to 210°
Medium damaged hair	410°	221°
No damage hair	450°	221°

*Suggestion: To get long lasting effect, don't washing hair within 3 days. (For daily care, use LUXLISS KERATIN DAILY CARE SHAMPOO and CONDITIONER)

Step 2 Straightening

SMOOTHING TREATMENT

0% FORMALDEHYDE

This revolutionary no formaldehyde smoothing system infuses unique amino acids, keratin and Argan oil. The process safely turns frizzy, curly hair into straight, soft and shine, yet lasts for long time when combined with heat from iron and dryer.

DIRECTIONS ▾

1. Wash hair twice with LUXLISS KERATIN DEEP CLEANSING SHAMPOO.
2. Blow hair to 100% dry, pour 2-3 ounces of the LUXLISS KERATIN FORMALDEHYDE FREE SMOOTHING TREATMENT into a bowl.
3. Section hair into four parts. Starting at the nape section, part the hair into 1/2" to 1" sections. Using a tint brush, start applying the solution from scalp to hair ends. Comb through hair with a fine tooth comb, insuring that the solution is evenly distributed. Repeat this until the entire head is complete. DO NOT OVER SATURATE. (Gloves should be worn during this procedure.)
4. Remove the plastic cap and comb hair thoroughly with a fine tooth comb removing excess product. Tightly seal the bottle after using it. (Do not wash the solution out of the hair.)
5. Blow Dry hair using a medium-hot heat setting, blow dry with wide paddle brush or vent brush to 100% dry.
6. Divide hair into 4 sections.

7. Using a flat iron, start at the nape of the neck, taking 1/8 inch sections, move the iron from root to end rapidly 5-7 times(3-5 times for fine or double processed hair).

	Farenheight	Centigrade
Severe damaged hair	380° to 410°	193° to 210°
Medium damaged hair	410°	221°
No damage hair	450°	221°

*Suggestion: To get best and long lasting effect, suggest washing hair after 1 day. Use with LUXLISS KERATIN DAILY CARE SHAMPOO and CONDITIONER

Step 3 Daily Care

DAILY CARE DAILY SHAMPOO

Gently clean your hair while drenching it with keratin proteins to improve strength, shine and manageability. Formulated with Keratin protein extracts, Argan oil and infused with a light blend of non-greasy oils, it can provide lasting protection, shine and smoothing. Guarantee to maintain the perfect smoothness and long-lasting keratin treatment effect.

DIRECTIONS ▾

Apply onto wet hair and scalp. Massage into lather and rinse thoroughly, repeat if necessary. Then use LUXLISS KERATIN DAILY CARE CONDITIONER.
